

THE EINSTEIN TOOLKIT

- Spacetime solvers
- Initial configuration generators
- Magnetohydrodynamics solvers
- Real-time analysis & tracking
- Computational infrastructure
- ... and much more

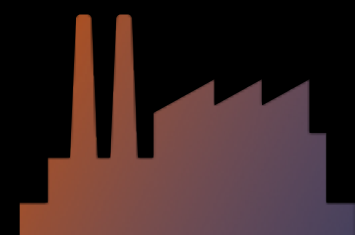

NON-CACTUS ETK TOOLS

- Code Generation
(Not part of toolkit,
but used to generate some thorns)

- NRPy+
- Krank (requires Mathematica license)

- Simulation Management

- Simulation Factory
- Jhuki (not technically part of toolkit)

- Data Analysis & Visualization:

- Kuibit
- VisIt

- Other stuff
- SelfForce1D

→ Reduce gruntwork & enshrine key techniques + best practices
